

Junior BI Consultant with MicroStrategy

Adastra is an international consulting company that creates functional solutions in various sectors, facilitating the transition to the digital era. Since its inception in the year 2000, Adastra has focused on data processing, analysis and warehousing. Data remains at the core of the company's activities, which have gradually expanded to include the Internet of Things (IoT), Big Data, Artificial Intelligence, and mobile app development.

Adastra's aim is to contribute to customers' businesses through smart data solutions. Clients include global and local leaders in the financial, banking, insurance, telecommunications, sales, and automotive industries, among many others including the public sector. Global projects are implemented from 10 offices by 2000 Adastra consultants.

We work in international teams and on projects for leading global financial, automotive, telecommunications and insurance pioneers. We pride ourselves in accepting the challenge of mastering new technologies with each new task and in empowering our clients in achieving results. What gives us satisfaction is the opportunity to apply innovation in our jobs.

For our new venture in Thailand, we are currently looking to recruit a talented Junior Business Intelligence Consultant to join our professional teams.

The successful candidate should have a desire to learn Business Intelligence best practices, relational structures, dimensional data modeling and structured query language (SQL). He/she will be responsible for BI development and implementations. **The new recruits will pass internal training courses in order to refine their technical expertise.**

Job Duties and Responsibilities:

- ✓ Analyze business and reports' requirements
- ✓ Translate the reporting requirements into data analysis and reporting solutions
- ✓ Analyze logical data models and create working frameworks with facts, attributes, hierarchies, metrics and relationships
- ✓ Design and develop reports utilizing MicroStrategy as a BI tool
- ✓ Build dashboards and help in the development of complex ad hoc queries and analysis
- ✓ Develop "time to resolution" reports to control data purity
- ✓ Advise clients on specific BI solutions according to their environment

Required Skills, Education, Knowledge and Experience:

- ✓ Current enrollment in a Bachelor's degree in Computer Science or related numerate / quantitative subject
- ✓ Knowledge and/or experience with one of the following BI tools - MicroStrategy, Oracle BIEE, Business Objects, MS SSRS/SSAS, Power BI or others will be considered as an advantage
- ✓ Very good knowledge with SQL and/or PL/SQL
- ✓ Interest and ability to learn new BI tools and technologies
- ✓ Strong analytical and communication skills
- ✓ Capability to approach problems as challenges and deal with them constructively

- ✓ English language proficiency (spoken and written)
- ✓ German language is an advantage
- ✓ Ability to travel abroad

What Adastra can offer you:

- ✓ Challenging projects in an international environment where open communication and knowledge sharing are encouraged
- ✓ Competitive compensation package and bonus scheme based on the personal performance review approach to recognition
- ✓ Comprehensive benefit plan
- ✓ Information and training sessions
- ✓ Successful referral program
- ✓ The opportunity to work with one of the best in the IM field

Are you ready to join a dynamic team of Information Management professionals committed to deliver best-in-class solutions and services to the world's leading organizations? Apply now and send your resume in English or German at info@adastra.co.th . We thank all interested applicants, but will only contact the short-listed ones.
