

Junior ETL Developer

Adastra is an international consulting company that creates functional solutions in various sectors, facilitating the transition to the digital era. Since its inception in the year 2000, Adastra has focused on data processing, analysis and warehousing. Data remains at the core of the company's activities, which have gradually expanded to include the Internet of Things (IoT), Big Data, Artificial Intelligence, and mobile app development.

Adastra's aim is to contribute to customers' businesses through smart data solutions. Clients include global and local leaders in the financial, banking, insurance, telecommunications, sales, and automotive industries, among many others including the public sector. Global projects are implemented from 10 offices by 2000 Adastra consultants.

We work in international teams and on projects for leading global financial, automotive, telecommunications and insurance pioneers. We pride ourselves in accepting the challenge of mastering new technologies with each new task and in empowering our clients in achieving results. What gives us satisfaction is the opportunity to apply innovation in our jobs.

For our new venture in Thailand, we are currently looking to recruit a motivated Junior software specialist and ETL consultant for our international Data Warehouse projects. The new recruits will pass internal training courses in order to refine their technical expertise.

Job Duties and Responsibilities:

- ✓ Analyze and implement business requirements
- ✓ Design, develop, test, deploy, maintain and document ETL solutions for data integration processes
- ✓ Optimize ETL packages
- ✓ Review and analyze functional requirements, map documents and assist in problem solving
- ✓ Participate in and lead code reviews to ensure quality and integrity of project deliverables
- ✓ Design and implement technical enhancements of Data Warehouse as required
- ✓ Work closely with business departments

Required Skills, Education, Knowledge and Experience:

- ✓ Current enrollment in a Bachelor's degree in Computer Science or related numerate / quantitative subject
- ✓ Very good knowledge and /or experience with ETL tools such as Informatica PowerCenter, IBM DataStage, Oracle Data Integrator, MS SSIS, Ab Initio or others is a valuable plus
- ✓ Solid knowledge and experience with SQL
- ✓ Strong analytical and communication skills
- ✓ Capability to approach problems as challenges and deal with them constructively
- ✓ Interest and ability to learn new ETL technologies
- ✓ English language proficiency (spoken and written)

- ✓ German language is an advantage
- ✓ Ability to travel abroad

What Adastra can offer you:

- ✓ Challenging projects in an international environment where open communication and knowledge sharing are encouraged
- ✓ Competitive compensation package and bonus scheme based on the personal performance review approach to recognition
- ✓ Comprehensive benefit plan
- ✓ Information and training sessions
- ✓ Successful referral program
- ✓ The opportunity to work with one of the best in the IM field

Are you ready to join a dynamic team of Information Management professionals committed to deliver best-in-class solutions and services to the world's leading organizations? Apply now and send your resume in English or German at info@adastra.co.th . We thank all interested applicants, but will only contact the short-listed ones.
