1. QE should be taken by the third semester. In case the student does not pass the first QE then the student can take QE for one time (second round) within 2 months after the first round
2. The student can take the proposal examination if the student registers the thesis at least 6 credits.
3. The student should report the progress thesis every semester to the committees at the end of each semester.
4. SIT will report to terminate the scholarship to KMUTT if the advisor, co-advisor, and committees evaluate that the student has no progress as well.
5. The student can continue learning after three years of scholarship by paying for learning by the student in case that the advisor consider that the student has the following achievement:
  - a. The student submits the second journal already and waiting only for result.
  - b. The Thesis is completed
  - c. The student takes the VIVA examination already.
6. The student understands the SIT rules and condition and KMUTT rules and condition for PhD learning. The student will strictly practice during the study. If the student cannot do based on the rules, the student will accept for the termination of scholarship.
